Judiciary, Lawyers, Law Firms, Law Libraries, Legislators, Law Students, Investigation Agencies, International organizations, Industry Associations, e-commerce businesses, ITES companies, IT professionals

Karnika Seth Computers, Internet and New Technology Laws

Key Highlights

- The book is written with a special focus on cyber law related legislations in India, the IT Act, 2000, its recent amendments and new rules framed thereunder
- Discusses the key developments in the field of cyber law across India and other jurisdictions, particularly, Europe and the United States
- Analytically covers pertinent issues including internet censorship & surveillance, freedom of speech, data protection, privacy, cybercrimes and electronic evidence
- Provides a scholarly insight into issues of jurisdiction, e-commerce, e-taxation, electronic signatures and payments
- Diagrams, illustrations, graphs, statistical data, landmark cases, and hypothetical examples have been used to simplify the complex subject of cyber law
- The author has discussed the lacunae in Indian cyber law regime and makes effective recommendations to strengthen the cyber law in India along with best practices to ensure privacy and data protection on the Internet
- The book has a clear objective of bridging the gap between legal fraternity and technical cyber world through a unique glossary of technical and legal terms

Expert's Opinion

"The book...is both the most exhaustive and useful treatise on Cyberlaws authored in India...The extraordinary characteristics of this book include the author's invaluable original and practical suggestions to strengthen the cyberlaw enforcement in India, its usefulness across many jurisdictions, thoroughly researched content and excellent legal analysis. The author has simplified the complex concepts of cyberspace and discussed emerging legal issues connected with new technologies such as cloud computing, electronic signatures and new online concepts of social networking, blogging and recommended best practices for internet usage that every internet user ought to know."

Justice A. K. Sikri

Acting Chief Justice, Delhi High Court

"...an excellent treatise which not only discusses developments of cyberlaws in India but also in various jurisdictions...This book is a must read for legislators, law enforcement agencies, international organizations, industry associations, e-commerce businesses, business process outsourcing enterprises, legal and IT professionals that are directly concerned with growth of Information Technology law in India. This book in its conceptualization and manifestation is truly a commendable achievement...and may even be instrumental in heralding progressive growth of IT laws in India."

Dr Gulshan Rai

*Director General, Indian Computer Emergency Response Team, Government of India,
Department of Information Technology, New Delhi*

"...an extensive reference not only for Lawyers and Judges; this is also an excellent reference cum user manual for Cyber Crime Investigators who have to collect, collate and present digital evidence. The chapters on cybercrime, digital evidence and IT Act cover complex issues; the task is difficult but Mrs. Seth has given a comprehensive and lucid treatment to the subject. I recommend this book to... prosecutors and investigators."

Loknath Behera, IPS

Inspector General of Police, National Investigation Agency

"...this book will be an excellent tool to acquire the basic knowledge necessary to understand the laws relating to Internet and information technology to be able to operate in a digital regime that is surrounding us day by day. No law person can afford to be ignorant of the virtual world of Internet anymore and this book is an invitation to introduce them to the laws and principles involved."

N.R. Madhava Menon

Former Director, National Judicial Academy, Bhopal, and National Law School, Bangalore

About the Author

Karnika Seth is a renowned Cyber Lawyer and Expert, and is the Managing Partner of Seth Associates, a law firm in India. She practices law at the Supreme Court of India and the Delhi High Court, and is advisor to many corporate houses and IT companies. Ms. Seth has been officially consulted by the Lok Sabha and the Ministry of Information Technology for her recommendations to develop cyber law in India. She is also a legal advisor to Office of Comptroller of Certifying Authorities under the IT Act, 2000. Ms. Seth has also actively resolved many cybercrime cases with the Indian law enforcement agencies. She is an active speaker on cyber law issues, both in print and electronic media, and delivers special lectures to judicial academies, police academies, Central Bureau of Investigation, senior government officers, industry associations, and corporate entities. She holds a Master's Degree in Corporate and Commercial Laws from the King's College, University of London. For authoring this book, Ms. Seth was awarded the Certificate of Honour by the Chief Justice of India on the occasion of Law Day in 2012.
